Trails & Equipment

The fall riding season has started so the Club is done grooming the trails. The snowmobile clubs took over the trails on September 16th. They are now responsible for all grooming of the trails. We can however still mow the trails and will most likely do so.

All Burnett County Forest wood trails and forest roads are now open. They are multi-use trails so please be careful should you be out on the ATV/UTV as you may very well meet up with a vehicle on the trails.

The new tractor has been ordered from Baribeau. We will take delivery on it in the Spring. Our trade will be turned in soon.

The Club truck is at Bruce's Auto Repair getting a new water pump and getting a 'once over' for next year.

The Club has received a lot of compliments on how good the trails were groomed and maintained this season. THANKS to all the groomers and trail workers this season!!! YOU'RE the BEST!

Keep in mind for next year.... There are several ways to get involved in the Club:

TRAIL MAINTENANCE, GROOMERS & MECHANICS & WELDERS

Necessary training will be provided. If interested, contact Ron Gray @ 715-259-3405.

Public comment/questions:

There was a lengthy discussion between George Costello of Danbury and John Keilkucki of the Webb Lake, both individuals serve on the respective town boards. The discussion centered around the gravel roads in Danbury; specifically, Carter Bridge and Briggs Lake roads (connection to Trail 8). John suggested to George to pave the road(s). George responded that he has information on how to get the road classification changed in order to get state funding to maintain/repair the roads.
